Student Submissions — Class Test

SIMATS Engineering • CSE • CSA0802 — Python Programming • 05-08-2026 • Category: Class Test • Student Submissions Report

Student 29 **Shaik Rehan** 192525110RC

3 / 5 submitted

Q1. Frequency of Elements

Score: 10.00 TC: 1/1 passed

CODE

```
a = [1,2,2,3,3,3,4]
for i in set(a):
    print(i,"→",a.count(i))
```

OUTPUT

```
1 -> 1
2 -> 2
3 -> 3
4 -> 1
```

Q2. Intersection of Lists

CODE

```
list1 = list(int,input(list1:).split())
list2 = list (int,input(list2:).split())
while(list1 == list2):
    print(missing numbers)
```

INPUT

```
1 2 3 4 5
3 4 5 6 7
```

OUTPUT

(no output)

Q3. Second Largest and Second Smallest

— Not Submitted —

Q4. Majority Element

— Not Submitted —

Q5. Remove Elements from List

CODE

```
list = list(int,input("enter the list:").split())
remove = list(int,input("enter the number of remove").split())
result = (if x in x if x not list)
print(result)
```

INPUT

```
10 20 30 40 50 60
20 50
```

OUTPUT

(no output)
